## Around The Glades

(By Paul Rardin)

Sucrose 12.7 and tonnage 75 tons to the acre. That's a fair yield of sugar cane cut this week by one of Pahokee's growers. To save an argument it isn't the highest sucrose content, neither is it the highest tonnage of the year but it is pretty good. The frost Monday morning damaged the cane to a certain extent but to tell how much is impossible at this time. Some of the cane far out from the warm waters of Lake Okeechobee was damaged much more than that growing here on the shores of the big body of water. The Okeelanta area had a temperature of 17 for six hours. That's rough. Other areas had low readings that didn't help the cane any at all. Early cutting of the frost nipped cane will save it, according to experts in the field.

As a result of the frost Monday the price on remaining vegetables was pushed up higher than the days when supplies were plentiful. Beans were quoted at Pompano this week as selling for \$5.00 per hamper. The local bean supply has been a minus quantity this week and prices are unavailable. Cabbage jumped \$1 from \$1.60 to \$1.65 per bushel and will probably go higher as the scarcity is realized. Potatoes are still in the high price column with 100 pound bags selling for \$8.50. Corn suffered severe damage and thousands of acres were ruined by the frost. The frost came Monday morning and Tuesday farmers were busy replanting their field. What little corn is left—damaged to a certain degree—was bringing \$3.00 Wednesday.

I have a letter from the State Road Department in Fort Lauderdale under date of January 14, 1965, saying that work will be started on Larrimore Road "next Monday a week." My interpretation of that phrase is that work should get underway Monday, January 25. One delay after another has come along and the latest is that the telephone company has a cable in the right-of-way which must be moved before the work can be started. If this is a fact, as reported, somebody in power and authority in the City of Pahokee should get in touch with the proper folks and see that something is done and pronto.

Of interest to Pahokee folks is another paragraph in the letter in regard to construction of Rardin Avenue in Pahokee. The work has been held up for weeks on account of the slow manner in which the sewerage contractor is accomplishing his plan. The SRD letter says that "we plan to resume construction on Rardin Avenue as soon as the City of Pahokee completes the installation and backfilling of their sewer project." There again somebody should take the bull by the horns and get something done. If things don't pick up a little in the next week or two, maybe I can suggest a plan of attack for the City to use to get something done and done quick.

## Kenneth McIntosh New Bank Director

At the January meeting of the stockholders of the Bank of Pahokee a new name was added to the list of directors—that of H. Kenneth McIntosh. Other directors of the oldest bank in Palm Beach county are: Lewis Friend, Robert L. Earnest, E. F. McIlwain, Julius T. Moon, Rupert Mock and Mrs. Martha McIntosh.

As a result of the annual meeting Julius T. Moon came up with another title to add to his vice president's title—that of cashier. E. F. McIlwain, for many years cashier of the popular financial institution, retired several months ago and his spot is now filled by Mr. Moon. Assistant cashiers are Frank E. Gillis, Karl F. Bennett and Marvin Crady. Martha M. McIntosh is Assistant vice president and Rupert Mock is president.

President Mock said that many inquiries had been coming into the bank about the absence of the time and temperature clock which has been absent since a huge truck tore it from the front of the bank. Mr. Mock said that the manufacturer had promised faithfully to have the clock back in place by February 1.

In addition to the clock another new feature will be added—a weather center—giving barometric pressure, wind velocity, wind direction and rainfall. The four dials will be encased in a panel of stainless steel and will make every patron of the bank a weather prognosticator.

## Friend Sets Meet Sweet Corn Group

Lewis Friend, chairman of the Sweet Corn Advisory Committee said there will be meetings of both the Advisory Committee and the Executive Committee of the Sweet Corn Exchange on January 26, at the Glades Office Building. The meeting will be a routine business meeting and the Advisory Committee meeting will begin at 10 a. m.

## Former Pastor In New College Talk

The guest speaker at the Lions Club luncheon meeting on Tuesday was Rev. Hal Hunter, former pastor of the Pahokee First Baptist Church and presently serving as pastor of Northwood Baptist Church in West Palm Beach.

Rev. Hunter told of the need for the new school which will be located on 200 acres of land in Palm Beach Gardens, donated by John D. MacArthur. The college is planning to launch a fund-raising drive for \$1.5 million to get started. The speaker said the target date for the opening of the new Florida Baptist Junior College has been set for the fall of 1968.

Rev. Hunter was introduced to the Lions by the pastor of the Pahokee First Baptist Church, Rev. Guthrie Colvard.

## Corn Group Moves Farm Bureau Bldg.

The business offices of the Sweet Corn Advisory Committee and Exchange have been moved from Unity Farms in Pahokee to the Farm Bureau Building at the intersection of U. S. 441 and Hooker Highway just north of Belle Glade.

## Power Company To Reduce Its Rates

Curtis Chase, Glades area manager for the Florida Power and Light Company, issued the following statement in regard to rate reduction:

"Upon receipt of the Order of the Florida Public Utilities Commission calling for a rate reduction to pass on to our customers, the 1965 income tax savings, we immediately initiated plans for working out the details and mechanics to put the Commission's Order in effect.

"Last year, the Commission's \$10 million rate reduction order provided that we pass on to our customers the savings resulting from the 1964 income tax reduction, plus an additional amount bringing the total rate cut up to \$10 million.

"Estimated savings from the 1965 tax reduction to be passed on to our customers will result in a rate cut of approximately \$3 1/4 million.

"Bills reflecting these savings will start going out just as soon as the details can be worked out and approved by the Commission."

## Frost Kills Corn Crop And Other Vegetables In Glades

It was cold in the Glades Monday morning of this week. Sweet corn and what few green beans there were, fell before the onslaught of the season's coldest morning. Temperatures showed 17 at 20-Mile Bend, 22 at Okeelanta, 26 at Bryant, 22 at the county barn at Belle Glade and various other readings depending on what part of the Glades the reading was taken.

Corn growers are busy this week replanting. One farmer was in the field with a disc early Monday morning before the frost had melted and chopped up several acres of corn that was already frozen. Celery suffered from the freeze as did other leafy vegetables.

Associate County Agent John Causey said a check with Glades produce growers pointed to extensive damage to leafy vegetables and to almost all of the corn located south of Pahokee.

Causey said the greatest damage occurred to what is known as "the salad crops." These include the various types of lettuce—romaine, Boston, leaf, bibb and iceberg.

Parsley, escarole and endive were also damaged by the freeze.

The lake area was whipped by a northwest wind that blew about six to eight miles per hour Sunday morning. There was little wind.

Sugar cane suffered severe damage from the freeze.

### Smyly Is Speaker Canal Point Union

Rev. C. J. Smyly of Jacksonville, State Training Union Director of the Florida Baptist Convention, was guest speaker at the monthly Training Union Council Supper meeting of the Canal Point Baptist Church Wednesday night. He was introduced by Raymond Martin, Training Union Director, who was in charge of the meeting.

## Growers Object To Park Water Plan

There was a meeting Wednesday at the Sugarland Park Auditorium in Clewiston where opposition was strong against the drainage of water from Lake Okeechobee to furnish water for the Everglades National Park.

The open meeting was called by the U. S. Corps of Engineers after a request was received from the Department of the Interior to divert the water from the lake to the park. Vegetable and cane growers, businessmen, politicians and other interested Glades residents filled the auditorium to present reasons why the lake water should not be used.

Masons of the Pahokee-Canal Point community will be in charge of the cornerstone laying for the new Everglades Memorial Hospital on Saturday afternoon, February 6, at two o'clock, according to S. J. Baggett, secretary of Everglades Masonic Lodge, No. 211, F&AM. The new hospital, to be completed in June, is being erected at a cost of \$1,200,000. Arnold Hughes, Worshipful Master of the Lodge will be in charge of the ceremony.

Past Grand Master of Florida Judge John T. Rose of Punta Gorda will be in attendance for the special ceremony, local officials said. Alton Jones and C. R. Wetherington, past Worshipful Masters, are working with Mr. Baggett and Mr. Hughes in arranging the program for the afternoon. The complete program will be announced later, they said.

The new 50-bed facility should be ready for occupancy in June. Hospital Administrator J. C. Simonds, Jr. said the two-story building will have more than three times the space of the present building on E. Main Street.

A copper box holding important documents—including the newspapers of the day—will be sealed in the cornerstone.

## County Fair Start Marked For Today

Record crowds will be accommodated at the 53rd annual South Florida Fair and Exposition, to be held Friday, January 22 through 30.

Eight new octagonal gates, improved grounds and enlarged grandstand are part of the capital improvements effected during the Summer in preparation for the 1965 South Florida Fair which will be the biggest Fair ever to be held in South Florida, at Exposition Grounds in West Palm Beach.

In addition to the physical improvements, the Fair this year will offer many new and diversified features. A kick-off parade will be held on Thursday, January 21 at 7:30 p. m., heralding the opening of the Fair which will hold its ribbon cutting ceremonies at 10 a. m. on Friday.

Marching from 12th Street to Hibiscus Avenue down Dixie Highway, the bands, color guards, local marching units, baton twirlers and beauty queens will pass the grandstand opposite the County Court House where Mayor Fred O. Easley and officers of the Fair will review the parade.

For the first time at the Fair will be the International Olympic Circus, a European style one ring circus which will feature acrobats, clowns, performing animals and whip dancers. Another new feature of the Fair of interest to young and old will be the Antique Autoland, an exhibition of vintage cars of many makes and years, combined with the Barber Shop quartets.

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones you own now are better than ever*

**Q: How does the new  $3\frac{3}{4}\%$  interest rate benefit me?**

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{4}\%$  for the first year and a half; then a guaranteed  $4\%$  each year to maturity.

**Q: When did the new rate become effective?**

**A:** June 1, 1959.

**Q: Does the new rate change the Bonds I bought before June 1, 1959?**

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{2}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q: Will the Bonds I own automatically earn their new rate?**

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q: When my E Bonds mature, will they keep on earning interest?**

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q: With the new interest rate, should I cash in my old Bonds and buy new ones?**

**A:** No. The automatic  $\frac{1}{2}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q: How are series H Bonds different from series E Bonds?**

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q: In what denominations can I buy series E and series H Bonds?**

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

**Q: How safe are U.S. Savings Bonds?**

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q: What if my Bonds should be lost, stolen or destroyed?**

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q: Where can I buy Bonds?**

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?**

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

## How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with

## March Of Dimes To Have Poster Girl

A three-year old girl who had her first operation for birth defects at the age of four weeks has been named the National Foundation's Poster Girl for the Palm Beach County March of Dimes.

She is Dodi Terry, christened Dorothy, daughter of Mr. and Mrs. Kenneth Terry, Jr., Village of Palm Springs. The tiny Poster Girl has two healthy sisters — Debbie age two and Marianne, eight months old.

When Dodi was born June 13, 1961 at St. Mary's Hospital, she came into the world suffering with crippled legs. The first attempt to correct the birth defect was an operation when she was a month old. Another operation followed when she was five months old.

Later, through the assistance of the Palm Beach County Chapter of the National Foundation, Dodi was sent to Warm Springs, Ga., where she was given a complete series of x-rays to determine the degree of her physical handicap. While there, the tot was fitted with braces which she still wears. Since that time, crutches have been added and her next hurdle will be an attempt to learn to walk with the crutches.

Dodi's father is an employee of Pratt and Whitney and her mother is attending Palm Beach Junior College where she is studying to be a teacher.

The battle against birth defects such as those which mark the childhood of Dodi, is the prime objective of the National Foundation's research program. Funds raised dur-

ing the January March of Dimes are channeled into research and treatment centers where scientists are making concerted efforts to find cures and controls of crippling birth defects.
